Steps For A Sustainable Future.

## Maximum Comfort Pool and Spa

849 North Summit Boulevard  
Frisco, CO 80443  
(970) 668-6339

*In 2011, Maximum Comfort Pool and Spa set up a program to dispose of hazardous waste properly. How did they do it?*

### Hazardous Waste Disposed Of!

Maximum Comfort Pool and Spa reviewed its waste disposal, realized they weren't living up to their philosophy of responsibility, and made a change for the better.

Hazardous materials capable of leaking toxins into our landfill are now taken to the Summit County Resource Allocation Park for appropriate disposal. Yes, Maximum Comfort's Shannon Knaub is a waste hero, unwilling to let toxic substances leak into our soil and ground water. Disposal was paid for by the Frisco Clean Tracks program.

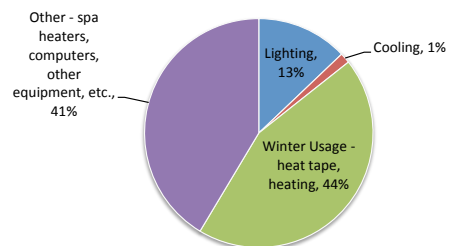

Every business should have a hazardous waste disposal program and corresponding staff education.

What materials will leak toxins into our landfill? Paint, oil, batteries, any electronic devices including cell phones, TVs and computers.

### Technical Audits Completed!

#### Maximum Comfort Pool & Spa - Estimated Electricity kWh End-Use

In addition to a waste audit, Maximum Comfort Pool and Spa received a comprehensive energy audit from Xcel Energy, which analyzed the building envelope, HVAC and other equipment, appliances and lighting. Maximum Comfort found several potential options to reduce energy consumption and cost.
