REQUIRED

The following actions are required to be a part of the Silverthorne Energy Smart business program:

- ✔ Complete on-site assessment (waste audit, energy and/or lighting audit). Free with participation in the program.
- ✔ Educate your staff and customers about your sustainability efforts and commitment.
- ✔ Display Silverthorne Energy Smart decal.
- ✔ Attend Silverthorne Energy Smart workshop (1 hour).
- ✔ **By the end of the year, have identified and accomplished at least one new sustainable action.**

How many square feet is your building (the section occupied by your business)?

Do you own your building?

If it is not owner-occupied- the building owner will be informed of any plans that may involve the building.

Initial____

Do you share energy usage/bills with other businesses/buildings?

What is your annual energy usage? Get your 12 month usage from Xcel Energy at 1-800-895-4999.

Electricity: _____ kWh

Natural gas: _____ therms

Are there any comfort or health issues with your building or work space? (excess moisture, drafts, poor lighting, asbestos contamination)

What is the approximate age of the building?

Have there been any major remodels?

Do you recycle?

What do you recycle?

Do you compost?

What do you compost?

What do you throw away? (What does your trash generally consist of?)

How much do you spend on trash pick-up annually?

How much do you spend on recycling/compost pick up annually?

Is trash pick-up, recycling or compost shared with other businesses/buildings?

What company handles your trash hauling service?

What are you most interested in improving in terms of sustainability?

What technical support would be most helpful to you?

Is there anything else you would like to tell us?
